

Client Testimonials

PASS Delivers Worldspan Solution On Time and On Budget:

"In 2002 Worldspan engaged PASS Corporation to build out an EDIFACT switch using their XX/1 technology set. The EDIFACT messages of PASS support the APIS requirements. PASS were able to quickly deploy a proof of concept, and came to the table with a competitive cost. During implementation, PASS stepped up and worked with Worldspan on a number of requirements and technology changes. PASS ensured that the project did not go over budget, yet managed delivery in a timely manner. **All in all we are very happy with the choice of PASS for this solution and their XX/1 technology set.**"

MTS Travel Saves Time with PASS VTO:

"The fare functionality is very important for us. **Up to now, this was very difficult to learn for our agents and it took them a lot of time to find the best fares.** We expect this amount of time to be reduced; it will be far easier to identify competitive fares and to learn the use of this functionality. VTO gives us increased efficiency in the agents' workflows, thereby reducing the response times for the customers. This means competitive advantages for us. [The customer profiling functionality of VTO] is extremely important and it surely becomes more and more for the whole travel business. **It will help us to elevate the excellent service our clients deserve.**"

Farelogix Teams with PASS to Develop Innovative Point of Sale Tool:

"We chose to work with PASS because of their outstanding industry reputation, their innovative solutions, and because of the proven success of our previous work with their XX/1 engine. PASS works with a wide range of clients and is able to customize to meet the unique needs of each customer. As the travel industry evolves and changes, PASS will continue to be able to deliver increasingly valuable software that integrates data from any source into one easy-to-use point of sale tool. Their **commitment to quality** and their **ability to integrate** new technology components into our existing offering has made our work together both mutually profitable and of benefit to the industry."

Unique Vacations Gains Speed, Connectivity, and Cost Saving with PASS XX/1:

"Powered by PASS XX/1, Unique Vacations, Inc., worldwide representatives for Sandals Resorts, improved the website and the floor with real-time availability for AIR of Sandals Resorts, one of the best Caribbean resort chains with a collection of the most romantic beachfront hotels on earth. Moreover, the Multi-GDS capability of XX/1 allows them to **easily negotiate between GDS**, because their XX/1-Interface stays the same—no matter whether they use Amadeus, Sabre, Galileo, or even Worldspan. A new GDS is just one click away. The **technology is great**, knows Roger Seivright I.S. Director, Unique Vacations, Inc.: "Everything is going well. We are pounding Amadeus—getting over 5000 requests a day from Amadeus and the **speed is incredible.**"
